UReportNow joins OIAAA as a Premier Partner

*“You won’t believe how UReportNow can immediately change the face of coverage in your district.”
Erich Frombach, AD Avon Lake High School*

March 1, 2024 – UReportNow has joined OIAAA’s highest partnership level as a Premier Partner.

UReportNow is a new product developed by DistrictWON that offers comprehensive and easy coverage for dozens of sports and extracurricular activities within school districts.

“Local coverage has been dying for years and many sports, clubs and school activities never had adequate coverage in the first place,” says UReportNow’s CEO Peter Fitzpatrick, “UReportNow makes it easy to cover these activities professionally to provide your students the coverage they deserve and desire.”

UReportNow provides schools comprehensive articles that are pre-formatted for display on all social media channels for easy distribution to the community. It also offers proprietary user inputs and permissions, picture and video enhancements, school security features, school branding, and journalistic intelligence.

"I was able to see one of the first presentations and UReportNow can change the face of how schools throughout the state of Ohio provide media coverage for all their activities. It is a powerful platform that every school should consider." Glen Gillespie, Executive Director, OIAAA
